Sacramento River Watershed Program

Stewardship Watershed Management Training

November 16-18, 2000

327 College Street, Suite 205, Woodland, California

In this training workshop, participants can expect to:

- *Learn how to deal with diverse opinions and approaches to watershed management*
- *Practice managing conflicts in group expectations and perspectives*
- *Gain a greater understanding of what "community based" and "locally led" watershed management means, and how to better support its implementation*
- *Better understand the interactions of science and culture in watershed management*
- *Learn new communication skills, including meeting facilitation and interest based planning*

Space is limited - Sign up early!

Registration Form

Please complete and return this form, along with your registration fee, no later than November 10, 2000.

Registration Fee: \$25.00, including all materials, 2 lunches and 3 continental breakfasts. Please send check, money order or purchase order (made payable to MMC), to:
